Tested here

PASS - final post ready (624 words, 0 warnings); draft blocked with 5 blockers; worked-example maths verified

Sample: AI-Blog-Outline-and-Edit-Workflow-Toolkit/blog-outline-edit-workflow/prompts/01_outline.md (excerpt 1/1)

```
You are a senior blog editor. Use my brief and voice card.

<brief>{{PASTE brief.md}}</brief>
<voice>{{PASTE voice_card.md}}</voice>

1. Propose 3 distinct angles (one line each + who it suits best). Base at least one on the
  "What I know that others don't" field.
2. For the angle that best fits the reader's goal, write an outline:
   - H1 (under 70 characters)
   - Intro plan: the hook, the promise, and why the reader should trust me (from my brief,
  not invented)
   - 4-8 H2 sections, with H3s only where needed. For each: the key point in one sentence,
  and "Evidence needed:" listing the example, number or source that would make it credible.
  Mark anything I must supply as [ME].
   - Conclusion and CTA from my brief.
3. List anything in the brief that is unclear or that you had to assume.
Do not write the article yet. Do not invent statistics, studies or quotes.
```
